

To whom it may concern,

I want to thank you for a job very well done. Our salesman, Marcel St. Arneault was both very persuasive and surprisingly true to his every word! When one small problem did come up, there was no complaint; everything was fixed to our satisfaction.

I would like to commend Joseph, Wesley and their helper for their excellent siding installation and fine attention to detail. They were always prompt, courteous and patient. All this when they had to work in unpleasant weather and sometimes right up to the dark hours so as not to leave any area exposed overnight. Please pass on my sincere thanks.

The installer of the door, Leroy, I never met but he as well did a commendable job of both installing and capping around the door.

Over the years, we have had many contractors work on our house; roofers, window and patio door installers, water proofers, air conditioning people, etc. Dealing with some was a nightmare; others were only varying degrees of incompetent. Your company has been the best and I will recommend it at every opportunity. Already, several neighbours have admired the installation and have expressed an interest in having you do some work.

Thank you very much,

Mr. and Mrs. Moreau
