Entry Doors

The new Shaker Collection is characterized by spare lines and pure shapes. In this style, simplicity reigns, the superfluous is banished, and an object's function takes precedence over its decorative appeal. This collection is therefore designed to offer refreshingly simple models that pair manufacturing excellence with a high regard for proportion, balance and harmony.

The Design Collection was born out of the marriage between modern and original styles. With its sleek lines, this Collection places the focus squarely on the harmony of its shapes. Its steel doors feature sculptural forms and unique bas-relief designs that are well suited to contemporary architecture. The models of the Design Collection are both a mirror of our times and a window on the future.

The originality of the Eclectic style results from a harmonious blend of borrowed elements from a mix of eras. In this free composition, each artistic and architectural style is explored and analysed to unearth its best elements. The vintage quality of these models is the result of careful choices. Perfectly proportioned, the Eclectic style is a fresh, modern take on the retro and traditional looks.

Doorglass Options

Some suggestions to guide you in your selection!

The entry system is a place of passage, an invitation into your home. The configuration of your entrance brings a personal touch to your residence. Taking the time to carefully select the products you love will make coming home that much better.

Novatech presents three entrance styles to help guide you:

①

Chic

Affirmed Beauty

Choose an eye-catching grandiose entrance. A stained glass doorglass paired with its matching sidelites and transom will illuminate your home. This **Chic** high-end entrance will add beauty and value to your property.

②

Pure Chic

Up-to-date Elegance

Make a focal point of your doorglass by pairing it with textured glass sidelites and transom. This **Pure Chic** combination is a refreshing style in perfect harmony with today's architectural and décor trends of simplicity and clean lines.

③

Pure

Outright Simplicity

A minimalist approach geared for comfort and the creation of a luminous space without compromise. Multiple textured glass options are available, depending on the level of privacy desired. A **Pure** entrance will add a touch of elegance and contribute to the architectural balance of your home.

Well Framed!

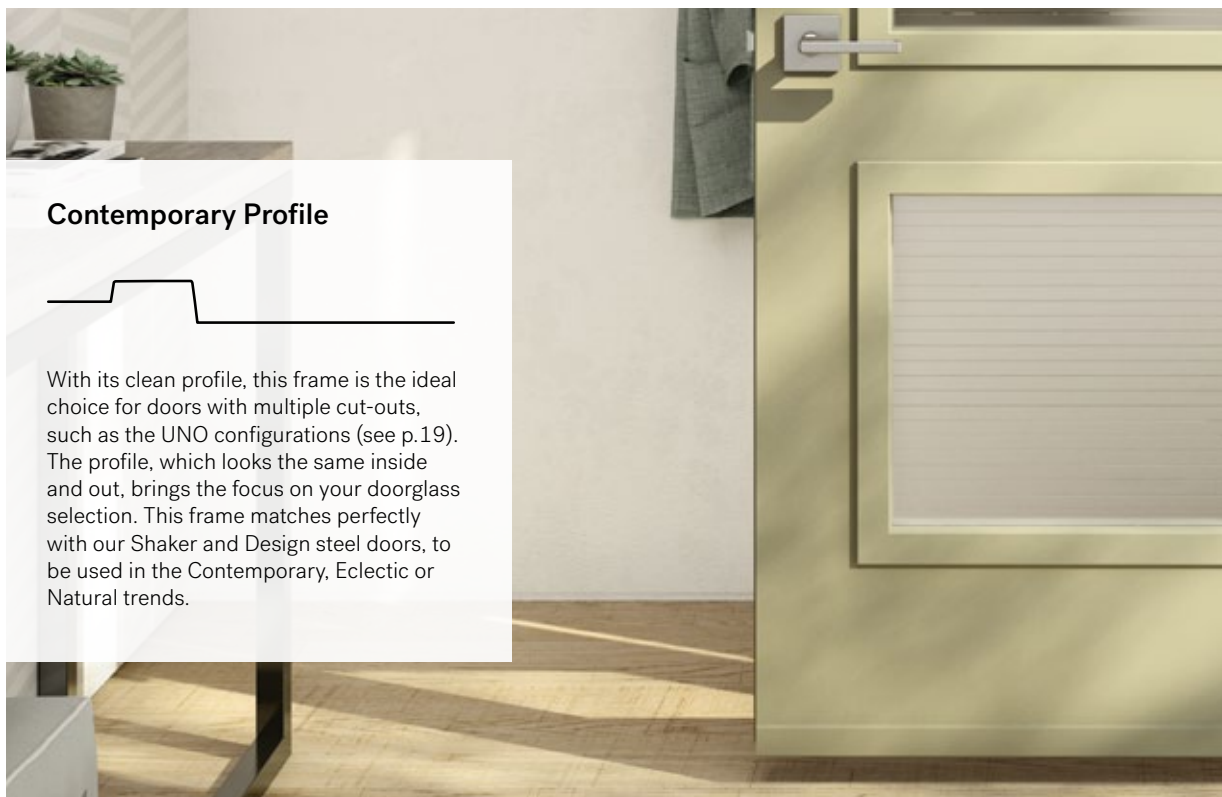

N

New

Contemporary Profile

With its clean profile, this frame is the ideal choice for doors with multiple cut-outs, such as the UNO configurations (see p.19). The profile, which looks the same inside and out, brings the focus on your doorglass selection. This frame matches perfectly with our Shaker and Design steel doors, to be used in the Contemporary, Eclectic or Natural trends.

Prestige Profile

A perfect fit with classic styles. The detailed profile makes the screw cover practically invisible creating an illusion of perfect symmetry inside and out. Specifically designed for the Prestige steel doors, the prestige profile frame can also be used on Classic steel and fiberglass doors. This frame will look great with products from the Timeless, Natural and Eclectic trends.

Change Textured Glass

Improve the privacy of a stained glass design or add your personal touch by changing one or more of its textured glass panes. See our selection of textured glass on page 92.

Custom Sizes

Many of our stained glass products are scalable to the specific dimensions of your project. We can create a unique doorglass, sidelite, or transom from the product of your choice.

Modify our V-Groove Designs

If privacy is not a concern, our V-Groove glass designs can be cut into clear glass. Modify the cuts themselves by choosing between translucent polished cuts or opaque unpolished cuts. Custom sizes available.
