GLASS DESIGN

THE FINEST QUALITY IN DECORATIVE DOORLITES

Entryguard[®]
DOORS 

QUALITY DOORLITES...THE ESSENCE OF *YOUR* HOME

From its very beginnings, VA Glass Design has built products that pushed and challenged the boundaries of our industry. For more than 25 years, we've been thinking differently, taking a position of leadership that has seen us set the trends and create new products in the styles of today and of tomorrow. With our new Absolute Collection, we put the purity and nobility of glass in its rightful place of prominence. The diversity of our designs ensures that we can readily meet your actual needs.

We produce doorlites that fit all budgets while presenting the greatest quality and breathtaking beauty. They're also durable and secure, and designed and manufactured entirely in Montreal by our skilled staff of more than 125 professionals and artisans.

Quality doorlites, the essence of your home, is an expression of your personal character...and good taste. It is also a symbol of warmth and welcome for your guests, but above all, a quality doorlite represents added value to your residence— a true reflection of who you really are.

Thank you for putting your trust in our quality, home-made products.

Nicolas Barazin

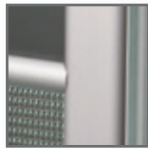

Nicolas Barazin
President, VA Glass Design

SIMPLY CHOOSE FROM AMONGST OUR 5 COLLECTIONS

Whatever your taste, preference or budget, VA Glass Design has the product that's right for you.

OUR COLLECTIONS ENTIRELY MANUFACTURED AT OUR MONTREAL PLANT

DECORATIVE | High Quality Non-Welded Decorative Doorlites

This collection speaks to VA-Glass Design's excellent reputation for quality and innovation. The superbly precise aluminum coming assembly eliminates the need for soldering and its drawbacks. The result is an impeccable finish — solid and durable.

ABSOLUTE | The Interplay of Glass, Textures and Purity

This all-new collection is a revolution in the world of doorlites. Designed without coming, these models bear a modern, clean and pure appeal*. They are very high-quality products at a reasonable price, with a style that puts the beauty of glass at the absolute forefront.

**New manufacturing technique. Patents pending.*

IMAGINE | Digital Printing

VA Glass Design has mastered the art of ceramic printing on glass. This breakthrough technology fuses the pigments into the glass at tempering, ensuring durability for years and years.

EXPRESSION | Custom, Personalized Designs

This collection offers a vast array of glass, aluminum coming and configurations, with our excellent non-welded assembly process. Mix and match to your heart's content, or choose from our many pre-designed models. The Expression Collection comes in 3 distinct series: **Decorative**, **Print-on-glass** and **Thermo-textured**.

OUR IMPORTED COLLECTION

WELDED | Economical Stained Glass

Our lead welded stained glass lites have detailed patterns and a traditional look. This is our most economical collection.

SPECIAL ORDERS

Upon request, we take orders on products with special dimensions or with changes in glass and casing.

TRANSOMS AND GARAGE DOORLITES

If you would like a decorative lite over your front door or in a garage door, we will make it to measure based on your selected model. Talk to your sales representative for more information.

About this catalogue :

There may be variations in the colour of components seen in this brochure versus actual models, due to factors such as photo session lighting or the print quality of this brochure. Pictures may differ from models. Models may vary.

DECORATIVE COLLECTION

Our non-welded collection is the very reflection of our expertise. Our solderless technique is of the highest quality and durability because it eliminates any chance of oxidization, discolouring, thermal breakage and vibration often seen in welded products.

We are introducing this year **many new models** based on our sense of innovation as creators of trends in the doorlite market.

Caming is offered in four basic colours on all our models: **black, silver, stainless and pewter.**

ABSOLUTE COLLECTION

This is our latest product line, the finest result of our creativity and innovation and the confirmation of our true leadership. A simple yet bold interplay of glass, textures and purity that is classic and noble. The glass is lovingly polished to a shine and brilliance that rivals that of a crystal in the sun.*

Result: a product of tremendous quality at an affordable price...that puts glass at the absolute forefront!

*** New manufacturing technique. Patents pending.**

IMAGINE COLLECTION

VA Glass Design employs the latest technological breakthrough in printing on glass: digital ceramic printing. The ceramic pigments are first printed, then fused to the glass at tempering, resulting in an impression that is resistant to light and scratches.

Each of our proposed models, including four new ones, is available for printing on **clear** or **white acid etched** glass. You therefore choose the degree of transparency desired for your door.

EXPRESSION COLLECTION

This collection offers a multitude of choices in configurations, glass and aluminum coming along with our excellent non-welded assembly technique. Feel free to create your own design or choose from the large variety of pre-designed models and styles suggested.

The EXPRESSION Collection comes in three distinct series:

DECORATIVE

Four Step Design: Glass, Configuration, Caming and Bevel

PRINT ON GLASS

20 mm black bands printed on different types of glass

THERMO-TEXTURED

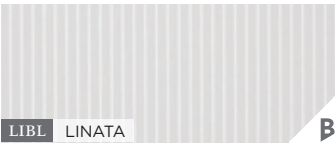

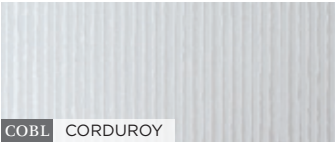

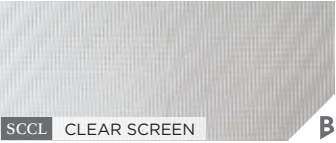

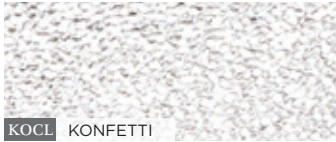

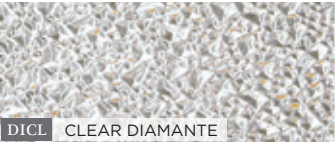

Uno, Trio, Quattro and Cinco models with choice of textured glass.

Let your imagination run free!

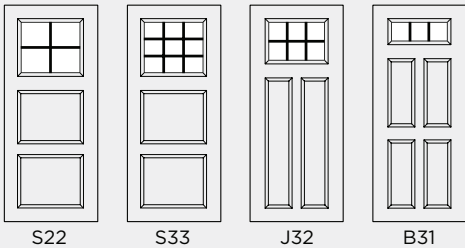

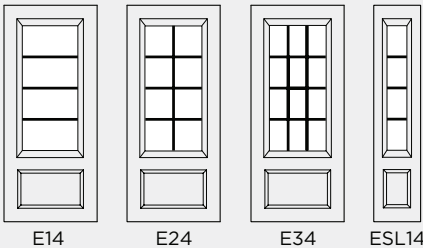

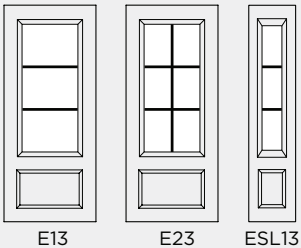

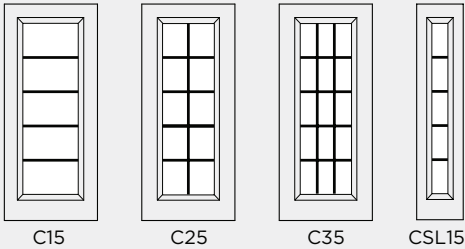

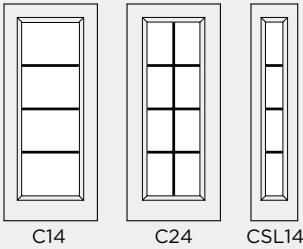

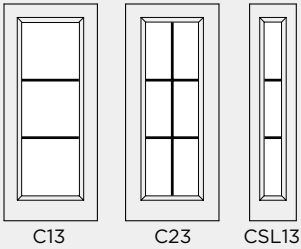

SIMPLE STEPS

Choose: 1. Your glass 2. Your configuration 3. Your coming style and colour 4. Beveled glass or not

OUR
SUGGESTIONS

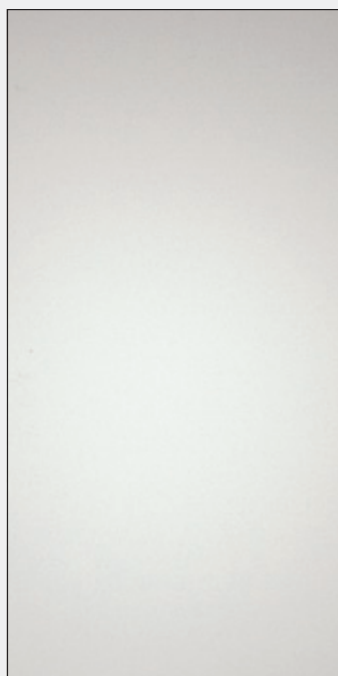

WHITE ACID ETCHED

LINATA

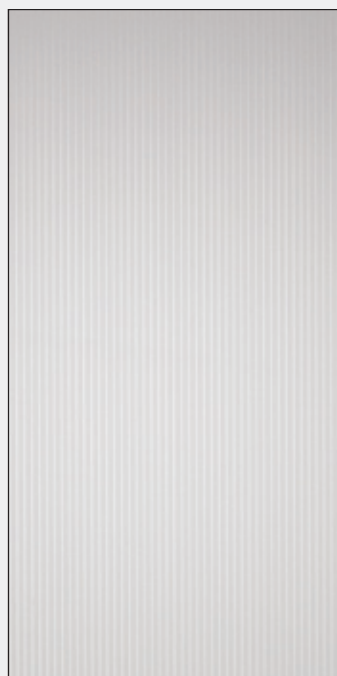

TEXTILE

The **EXPRESSION PRINT ON GLASS** Collection employs our ultra-modern ceramic digital printing technique to print a 20 mm black band on a clear glass surface with a textured glass in the background therefore suggesting pvc fake mullions. Simplicity, wide variety and a great modern look!

See Page 33
for other available
textured glass models.

P DECORA PVC

H DECORA HYBRID

EA EURO SILVER EI EURO STAINLESS EB EURO WHITE

U EUROPA PVC

DECORA

The DECORA frame is suitable for all VA Glass Design sealed units, in two versions: DECORA PVC and DECORA HYBRID. Both come with a discreet screw cover. They meet Energy Star® standards and exceed industry standards for air and water tightness under CAN/CSA A440-00 (B5).

Colour: White. Both versions can be painted.

Format: Suitable for all door and lateral openings.

DECORA PVC. This Canadian-made frame is a white PVC extrusion that resists warping and yellowing.

DECORA HYBRID. Ideal for coloured doors, this frame features PVC extrusion on the interior and a white painted aluminum extrusion on the exterior. With its classic look, this hybrid frame offers the best of two worlds: high energy performance, flexibility and durability.

EURO

With its highly contemporary design, the Euro frame bestows your door with a look that is modern, elegant and timeless all at once. Made in Canada with a 2 1/4 inch anodized aluminum extrusion. It also meets Energy Star® guidelines and exceeds industry standards for air and water tightness under CAN/CSA A440-00 (B4).

Colours: Silver, Stainless Steel and White.

Format: Suitable for all door and lateral openings.

Please Note: With the Euro frame being larger than regular frames, the doorlite will be smaller, and the design may be slightly modified.

EUROPA PVC

Inspired by the Euro, our new PVC extruded EUROPA frame matches our contemporary models perfectly. Flat, narrower (1.5") and more refined, it's suitable for all door and lateral openings. It can also be painted. It meets Energy Star® guidelines and exceeds industry standards for air and water tightness under AAMA/WDMA/CSA 101/IS 2/A440-08.

Colour: White. Can be painted.

Format: Suitable for all door and lateral openings.

Example of non-welded doorlite: Patrimonia (page 11)

WELDED OR NON-WELDED?

Did you know that there are significant differences between welded (imported) and non-welded (VA Glass Design) doorlites?

NON-WELDED

A high quality, durable product

WELDED

An economical solution

DECORATIVE COLLECTION	WELDED
Made entirely in Canada	●
Anodized aluminum caming	●
Uniformity of joints	●
Monobloc construction	●
Contains no lead	●
LIFETIME WARRANTY*	
Discoloration	●
Oxidization	●
Vibration	●
Thermal Breakage	●
10 YEAR WARRANTY	
Condensation and seal failure	●

* Limited

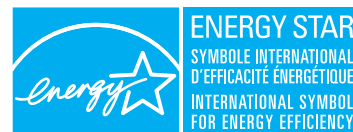

ANTI-INTRUSION OPTION

Safety laminated glass ANSI Z97.1

Security glass is offered as an option: the glass is tempered and laminated on the outside to protect its integrity against breakage or break-in attempt. Highly recommended with the purchase of a multipoint lock for maximum security.

ENERGY STAR CERTIFICATION

We have standardized the use of Low-E glass and argon gas to more effectively respond to Energy Star® requirements, and ensure top performance in energy efficiency. Most of our doorlites qualify for A, B and C Energy Star® zones.

Note: Textured glass used in the production of our doorlites may contain irregularities in the pattern, small air bubbles and streaks which are an integral part of the product. They are not considered defects.
